Washington, DC 20500

Dear Mr. President:

On behalf of the Republican Study Committee (RSC), the largest caucus in the U. S. House of Representatives, with more than 110 social and economic conservatives, I again respectfully request a meeting with you and leading RSC Members to discuss issues of mutual concern and priorities for our nation, particularly health care.

Though we look forward to our meeting this week with Health and Human Services Secretary Kathleen Sebelius, we continue to request a meeting with you personally. Especially in the area of healthcare, we wish to share with you our positive solutions to our current challenges.

We recall your asking Republicans with health reform solutions to come to the White House to discuss them with you. To that end, we remain eager to get on your calendar to discuss the solutions we've proposed.

As we indicated in past letters, we have introduced the Empowering Patients First Act (H.R. 3400), a patient-centered approach to health reform. Additionally, RSC Members have introduced at least three-dozen other health care bills, a list of which was handed to you by Rep. Scott Garrett of New Jersey as you exited the House Chamber on September 9th.

We look forward to discussing these bills and other priorities with you at the White House, per your invitation. Please contact RSC Executive Director Paul Teller at paul.teller@mail.house.gov or (202) 226-9718 to work out the details. Thank you.

Sincerely,

Tom Price, M.D.
Chairman, U.S. House Republican Study Committee
